This is it. This is the home you've been waiting for. Not only is this home better than a model home, the lot location, beautifully appointed upgrades & the backyard are all flawless. The square footage is larger due to the seller's taking 2' from the golf cart garage to make the 2nd bedroom larger (14x14). With over \$107k in options&upgrades, how can you be disappointed?-They are in the documents tab. The latest designer touches t/o. This open & bright plan is one of the most popular plans in PebbleCreek! Engineered wood, Quartz counters, coffered ceiling & the backyard is an entertainers dream. Whether you're hosting game night, a family gathering, or spending a quiet eve alone, it doesn't get much better than this. Mechanical solar shades on patio, extra area for spa or water feature.

- Prime Location
