An inviting kitchen is the heart of this home, welcoming guests and family alike and making every day feel like a holiday. Remodeled with painted cabinetry, subway tile, granite counters and a terrific work island. The open main-floor living is designed to accommodate quiet family times, raucous holiday parties or a dinner party for eight equally well.

The warming fireplace, vaulted ceiling, heated floors, and large walk-in shower with custom tile design and rain shower head make the master suite a cozy retreat. Three more bedrooms complete the family sleeping quarters upstairs. It's not surprising, the bunkhouse with bath keeps company drawing straws to win a spot in this special space.

Indoor-outdoor living is maximized with patios and walkways and of course, the entertainment patio will attract plenty of attention. A delightful screened-in porch boasts a custom fireplace to extend outdoor living well into the evening without the dreaded Minnesota mosquito. And don't miss how well the home has been designed to showcase the client's unique artwork, worldly antiquities, and custom-designed furniture. An adjacent back lot also available.
